

Essentials of Neuropsychological Assessment: A Comprehensive Guide to the Assessment of Cognitive and Behavioral Impairments

By Edward Gorham, PhD, and L. Eugene Arnold, PhD

Essentials of Neuropsychological Assessment is the most comprehensive, up-to-date guide to the assessment of cognitive and behavioral impairments. This extensively revised and updated fifth edition contains all the information you need to master the assessment of neuropsychological disorders, including detailed descriptions of neuropsychological tests, case studies, and sample reports.

Written by two leading experts in neuropsychological assessment, Essentials of Neuropsychological Assessment provides a clear and concise

overview of the field. The book is divided into three sections:

1. **The Foundations of Neuropsychological Assessment:** This section covers the theoretical and methodological foundations of neuropsychological assessment, including the history of neuropsychology, the neuroanatomy of cognition, and the principles of test construction and interpretation.
2. **The Assessment of Cognitive and Behavioral Impairments:** This section provides detailed descriptions of the most commonly used neuropsychological tests, including tests of intelligence, memory, attention, language, executive function, and social cognition. The authors also provide guidance on how to interpret test results and make differential diagnoses.
3. **The Application of Neuropsychological Assessment:** This section discusses the application of neuropsychological assessment in a variety of clinical settings, including neurology, psychiatry, rehabilitation, and forensic psychology. The authors also provide guidance on how to write neuropsychological reports and how to communicate assessment results to patients and families.

Essentials of Neuropsychological Assessment is an essential resource for neuropsychologists, clinical psychologists, neurologists, psychiatrists, rehabilitation specialists, and forensic psychologists. The book is also a valuable resource for students in these fields.

Reviews

"Essentials of Neuropsychological Assessment is the gold standard for neuropsychological assessment manuals. This fifth edition is a must-have

for anyone who practices neuropsychological assessment."

- Robert L. Heilbronner, PhD, ABPP, FNPA, Past President of the National Academy of Neuropsychology

"Essentials of Neuropsychological Assessment is an invaluable resource for clinicians and students alike. This fifth edition is a comprehensive and up-to-date guide to the assessment of cognitive and behavioral impairments."

- Howard M. Weiss, PhD, ABPP, FNPA, Professor of Neurology and Psychiatry, University of California, San Francisco

"Essentials of Neuropsychological Assessment is a tour de force. This fifth edition is a must-read for anyone who wants to understand the latest advances in neuropsychological assessment."

- Eric A. Zillmer, PhD, ABPP, FNPA, Professor of Psychology, University of Washington
