Illuminism originated in the 17th century as a reaction to the dogmatism and superstition of the medieval church. Enlightenment thinkers such as

René Descartes, John Locke, and Immanuel Kant believed that human reason was the best way to understand the world and improve society.

Illuminism spread rapidly throughout Europe and America, and its ideas had a major impact on the development of modern science, democracy, and human rights.

## **The History of Discordianism**

Discordianism is a more recent ideology, founded in the 1950s by Greg Hill and Kerry Thornley. Discordians believe that chaos is the natural state of the universe and that attempts to impose order are doomed to failure.

Discordianism is a playful and satirical religion that mocks the seriousness of traditional organized religions. Discordians believe that there are no gods or goddesses, and that the only true deity is Eris, the goddess of chaos.

## **The Battle Between Illuminism and Discordianism**

In the 20th century, the existentialist philosophers Jean-Paul Sartre and Albert Camus argued that life is absurd and that there is no meaning to be found in it.
