**Imagine leaving behind a comfortable life to sail the world, providing medical care to remote communities in need.** That's exactly what Nurse Sue Austin did.

For over a decade, Sue has been sailing the globe on her 40-foot sailboat, the Sea Dragon. Her mission: to bring medical care to underserved communities, from the remote islands of the Pacific to the war-torn regions of the Middle East.

Sue's journey is a testament to the power of compassion, resilience, and the human spirit. She has faced countless challenges along the way, from storms and pirates to disease and poverty. But through it all, she has never given up on her mission to help others.

**In her new book, *The Nurse Who Sailed the World*, Sue shares her incredible story with the world.** She writes about the triumphs and challenges she has faced, the people she has met along the way, and the lessons she has learned about life, love, and the importance of giving back.

Sue's book is not just a travelogue or an adventure story. It is also a profound meditation on the human condition. She writes about the resilience of the human spirit, the power of hope, and the importance of compassion.

***The Nurse Who Sailed the World* is a must-read for anyone who is interested in adventure, travel, or the human spirit.** It is also a powerful reminder that one person can make a difference in the world.

**Here is an excerpt from Sue's book:**

*"I have often been asked why I left behind a comfortable life to sail the world and provide medical care to remote communities. The answer is simple: I believe that everyone deserves access to quality healthcare, no matter where they live.*

*"I have seen firsthand the devastating impact that lack of access to healthcare can have on individuals and communities. I have seen children die from preventable diseases, and I have seen families torn apart by illness.*

*"I believe that healthcare is a human right, and I am committed to ng my part to ensure that everyone has access to the care they need. I am grateful for the opportunity to sail the world and provide medical care to those who need it most.*

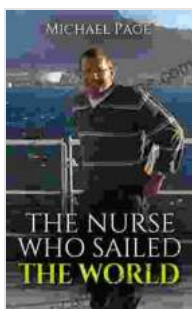

*"My journey has not been without its challenges. I have faced storms and pirates, disease and poverty. But through it all, I have never given up on my mission to help others.*

*"I believe that anything is possible if you set your mind to it. If you have a dream, don't let anything stop you from pursuing it. The world needs more people who are willing to make a difference.*

*"I hope that my story will inspire others to follow their dreams and make a difference in the world."*

**Sue Austin is a true inspiration.** She is a role model for all of us who want to make a difference in the world. Her book, *The Nurse Who Sailed*

*the World*, is a must-read for anyone who is interested in adventure, travel, or the human spirit.
